Form: Chemistry - Recitation TA Evaluation

Instructor: Beaton Jr, Alec Angus

CROSS-LISTED: Beaton Jr, Alec Angus CHE106 M017, CHE106 M019, and CHE106 M021

Responses: 50 Enrollment: 93 Response Rate: 53.8%

Comments:

- He is one of the best TAs for chemistry and would definitely recommend him for other students taking that class. He is very knowledgeable in the subject and will not have any problem helping you out if you do not understand.
- If this class wasn't so early I would have been more enthusiastic about going.
- My TA has played a major role in helping me prepare for exams in lecture, the homework, and even CHE 107 Lab. He goes into detail for the Mastering Chemistry homework, works out the practice exam problems in an in depth and clear way, and gives us handy tips for learning course material. Overall a great TA
- Only went to recitation a few times so I don't feel my evaluation means much, but for a morning recitation it wasn't completely miserable when I went.
- Really helped me to understand the topics better. Explained in depth and clearly
- TA did a great job of having explanations ready for the practice problems. He fully explained and made all of the answers clear.
- This is an evaluation for Elan, not for Alec. For me, personally, it would have been more helpful if during recitation, the TA gave students a chance to solve the problems themselves, similar to how CLASS tutors do it, rather than solving problems himself. Other than that, Elan did everything he could to be helpful, was respectful and cared about the students. Thanks!
- Very good TA, knows a lot about the subject, only thing I would change was that it was hard to see him writing notes on the screen, not his fault but just an fyi.
- Well organized and never unprepared. Has a deep knowledge of the material discussed.
