• Alec, Minh, Nicole, you three were the best part of PChem Lab. So helpful, knowledgeable, understanding. Highly recommend the 3 TAs!

• I had a problem with one of the professors not fully reading a short email I sent, about a personal issue, but still responding. His response insinuated something that wasn't true, and I feel this was inappropriate.

• All the TAs were amazing. They met with me over zoom many times when I had questions. Would totally recommend them to anyone.
