Term: Spring 2020
Form: Chemistry - Laboratory TA Evaluation
Instructor: Beaton Jr,Alec Angus
Class: CHE357 Section M001 (Physical Chemistry Laboratory)
Responses: 5 Enrollment: 13 Response Rate: 38.5%

Comments:

- Alec is a wonderful TA and teaches very well. I liked that he stated exactly what he wanted from the assignments he gave. The questions were thoughtful and the directions very clear. His explanations during lab lecture were understandable.
- My favorite TA!!!

Form: Chemistry - Recitation TA Evaluation

Instructor: Beaton Jr,Alec Angus

Class: CHE356 Section M001 (Physical Chemistry II)

Responses: 9 Enrollment: 21 Response Rate: 42.9%

Comments:

- Alec didn't really help in person with this class as much as the lab portion.
- Alec was so great. He make such hard material easy to me. He always answered my emails promptly and was always a great help. Thanks Alec!
- I don't think I ever met this TA.
- Very helpful with explaining problems that I had trouble doing. Responded promptly and provided feedback that was useful for future assignments.

Comments:

- Alec was a really great TA. (:
- I liked Alec. Described things clearly and his slides were well put together. Maybe give us some more questions that aren't so easy to answer in addition to the ones you have. That way we have to think a bit harder and possibly will learn more, though I liked that you said what you were looking for. That was very helpful.
