---------------	---------------

- Really helpful and explained topics if confused.
- Y'all are good.
- Great TA, more than willing to help answer questions and the labs are well thought out without repeating the same questions. His grading page was helpful to understand the point distribution.
- Great
- Thank you very much for a nice semester. I loved having you as a TA!
- Alec is always enthusiastic to teach and to help.
- Great!

<ul style="list-style-type: none"> • I reached out to Alec a lot more for the lab sections rather than the lecture. Overall a great TA. • Great TA. Very approachable and helpful. His labs and post labs are well thought out. Gives great feedback on his post lab grading sheet "Rubric". I actually learn from his labs. He is very open to helping when I need it. • Y'all are good. • Great • Thanks for being so patient. I get good vibes from you. • Alec is actually the greatest TA at Syracuse University. He is always willing to help outside of class, he gives really in depth response which really translates into the fact that he understands so much of the science. • Alec was incredibly helpful throughout the term and was clearly passionate about his research and helping students learn. :)
